THE SOPHOMORE CLASS
HOLMES JUNIOR COLLEGE

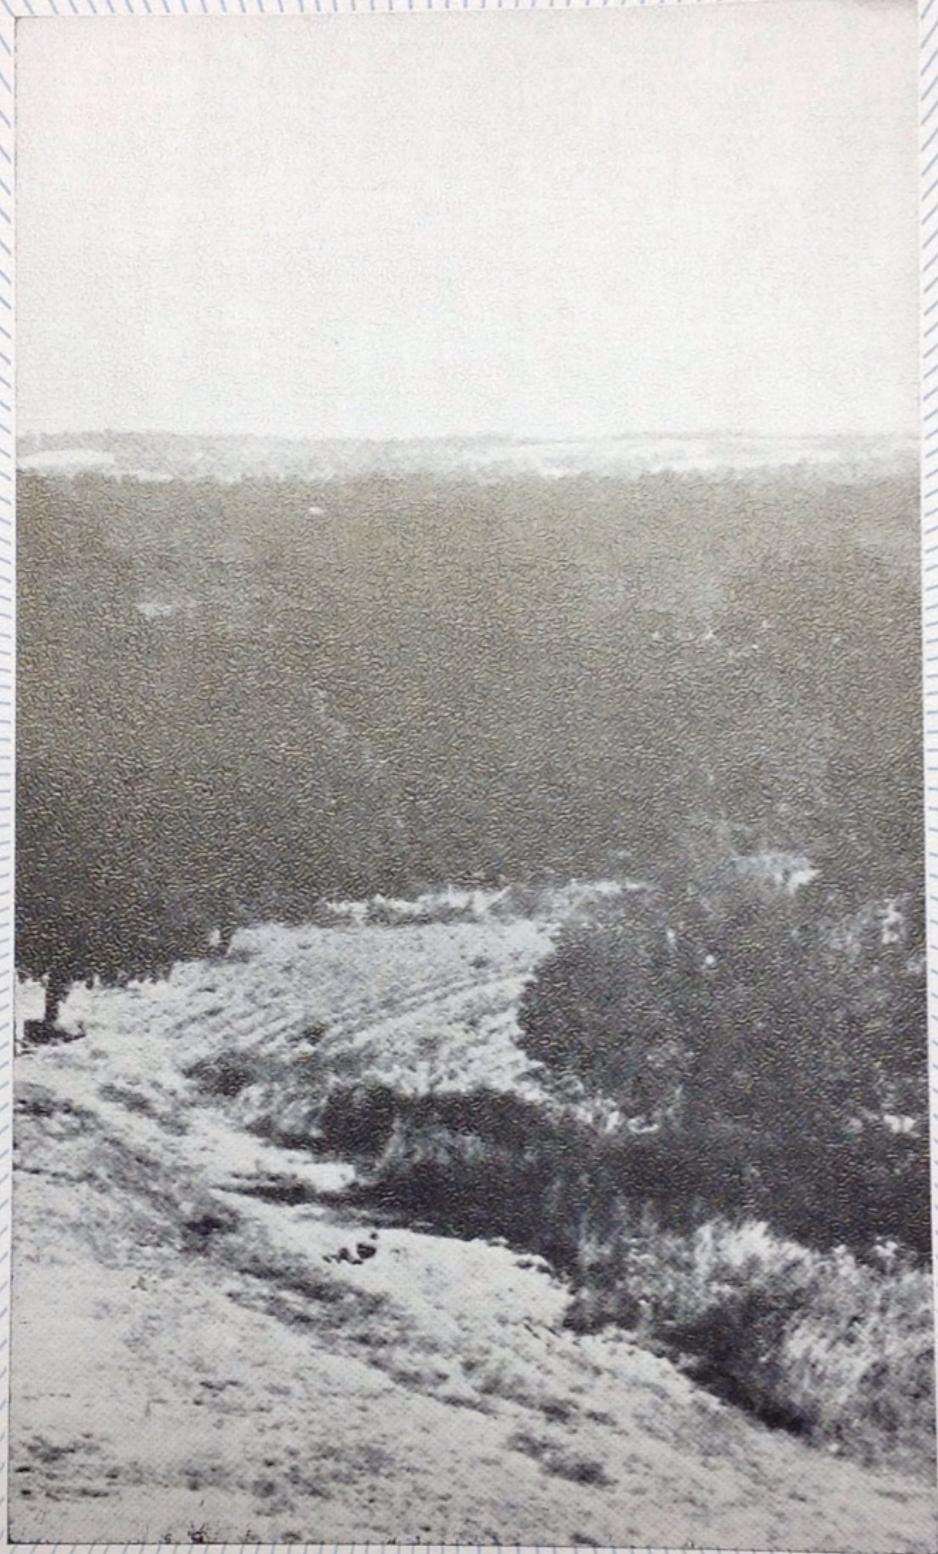

GOODMAN, MISSISSIPPI

Introduction

The student body of Holmes Junior College is granted a privilege not accorded any other student body in the state; namely, the ability to stand anywhere on the campus and see earth and sky meet in the far distance.

As the river and stream seek and find peace in the vast sea, so can human yearning reach out and find peace in the boundless ocean of distant horizons. This vision of Infinitude, beyond time and space, gives us a living sense of Divine Presence. The awe-inspiring uncertainty and the mystery of the beyond lead us toward the Creator with Whom the Ego ever longs to be united.

Because this view is one of the most distinctive features of our campus, because it is unique and peculiarly our own, the 1941 staff has been granted the privilege of changing the name of our yearbook to HORIZONS.

Foreword

Knowing that some find the way through religion and literature, others through art and science, others through the harmony of rhythm, and still others through giving, it is the purpose of the 1941 HORIZONS to show through our classes and organizations, through our everyday life of work and play, that it is ever our aim to realize God in all things.

Dedication

*Truth does not change,
only man's portrayal gives
it different forms and coloring
in varied ages and climates. It is
to this quenchless Spirit of Universal
Truth—that immortal spirit which has sus-
tained man in all ages; which leads on
to higher endeavor; which reveals
the Way and finally unites
humanity with the Divine
—that the 1941
HORIZONS is
dedicated.*

MR. RAS M. BRANCH, A.B., A.M.

THE PRESIDENT'S MESSAGE

May the ideals and the spirit of Holmes Junior College be always evident in the life of each student as he departs from this institution and journeys beyond our horizons. Our thoughts will ever reach out to you, and our prayer is that your aims be as far-reaching as the vastness of the distance.

Ras M. Branch

Religion

"Religion is a region in which the spirit unburdens itself of its finiteness, and relates itself to that which is Unlimited and Infinite. All things become revealed to us in the pure light of Truth."

—EDWARD CAIRD.

The ultimate aim of all mankind has ever been and will ever be the realization of the Divine. Each life has a current of spirituality running through it, and this current will eventually lead to God. All that does not develop this upward curve of spirituality is but chaff before the wind. As the darkened hills and sky mingle horizons, as summer heat fades into the stillness of evening, so does the soul of the individual lose itself in the Divine.

Alma Mater

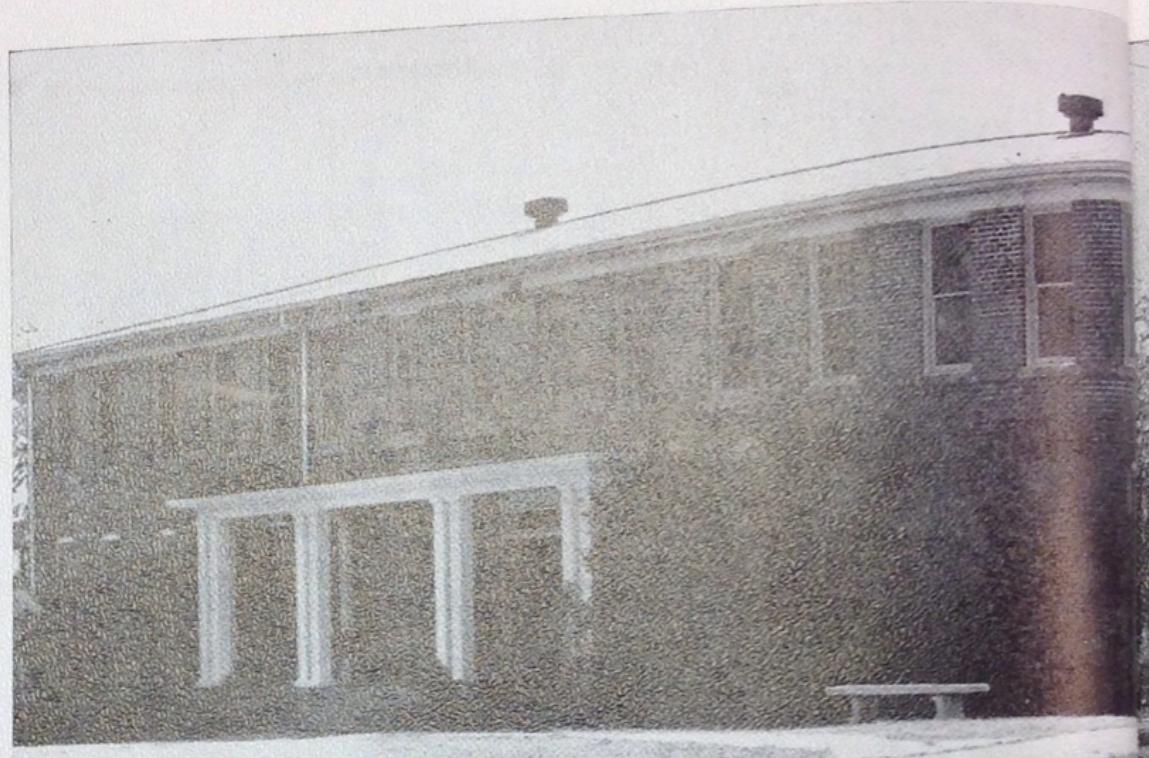

*All hail to thee, oh, Holmes J. C.,
Alma Mater, all hail!
Thy virtues holy, thy precepts true,
Graven on our hearts, shall never, never fail.
Thy children here, from year to year,
As we go from thy halls,
Shall honor bring and ever sing,
Love and peace dwell in thy sacred walls!*

Literature

"Great men are they who see that spiritual is stronger than any material force; that thoughts rule the world."

—RALPH WALDO EMERSON.

The greatest interpretation of human living is to be found in literature and music, painting and sculpture. Each is an artistic expression of life told in emotional and rhythmic language. A perception of beauty plus imagination is the very soul of creative writing. Every race, every country has a literature of its own; each rich in the beauty and wisdom of man's universal experience of life.

Music

"Let us accept music as a gift, a most precious gift of God; let us study it with reverence, so that we may catch and drink in the spirit of love which it breathes, which is of God, and which leads to God."

—KARL MERZ.

Music, like all art, is created beauty. The elements of musical composition are rhythm, melody and harmony. Of all the fine arts the most accessible, the most social and the most influential is music. Music speaks a universal language—one by means of which the soul of mankind is ever exalted. The highest purpose of music is to portray goodness and beauty in their true relation to the universe and to God.

Science

*"Happy the man who,
studying nature's laws,
Through known effects
can trace the secret cause."*

—VERGIL.

Science asks not *why* things happen but rather *what* it is that happens. Through experimentation plus a combination of observation, hypothesis and mathematical deduction, science seeks to describe accurately the phenomena not only of this universe and other universes but also the interactions of electrons within each atom. The ultimate goal of all science is the finding of the one law governing all nature and through it the One Source of Divine Energy.

Debating Club

In the tournament held at Delta State Teacher's College on December 6, the Holmes debating team tied with the Senatobia team in judges' decisions. In a count of points, however, Holmes, by a small margin, missed getting into the semi-finals. They acquitted themselves well and deserve credit for their work on the question, Resolved that: "The United States government should require universal military and defense training of all youth becoming of age."

International Relations Club

The International Relations Club is composed of sophomores who have completed six hours in the Social Studies with an average of C. At the end of the first semester those Freshmen who have maintained the required average are invited to become prospective members. Each year a delegate is sent to the Southeastern International Relations Convention. This year John Allen Cade and Sam Kelly attended the meeting at Tallahassee, Florida.

Art

“Nothing makes the soul so pure, so religious, as the endeavor to create something perfect; for God is perfection and whoever strives for it, strives for something that is God-like. True art is only an image of God’s perfection.”

—MICHAEL ANGELO.

The True, the Good and the Beautiful have been called the fundamental basis of all great art. A universal craving for Beauty is the creatrice of all art, and artists throughout the centuries have but one purpose: to find an ever more perfect Beauty. A work of art is great when it lifts the souls of men above the commonplace to the sublime, above the material to the spiritual.

Athletics In Review

All those interested in H. J. C. are proud of the athletic teams which represented the school during the year. We are proud of these teams, not only because of the splendid records made, but also because of the excellent sportsmanship displayed.

The football season saw the debut of Randolph "Monk" Campbell as coach, who in his first year enjoyed a successful season. Starting slow under a new system, the team showed steady improvement and finished as third in conference standing.

The boys' basketball team under Coach Thomas had a very successful season as shown by winning 22 games. The team was composed primarily of Freshmen with only one man from last year's squad; thus leaving a group who should go far next year.

The girls' basketball team under the direction of Coach Frank enjoyed the most successful season in the history of the school, winning 25 out of the 26 games and climaxing the tournament with a thrilling victory over Moorhead—41-40 for championship.

The 1940 baseball team, composed of an entirely new group of boys, under the direction of Coach Thomas, won the state championship for the third consecutive year; thereby setting a Junior College record for the baseball title.

The tennis team for 1940, with an inexperienced squad, made a very good record. The girls' team won the doubles for three consecutive years, thus establishing a new record for consecutive winnings.

H. J. C. had in 1940 its greatest track team, composed mostly of boys who had not participated in this sport before entering college. Coach Frank, with a small squad, won second in the state meet, being defeated 6 points by Raymond. Outstanding was the mile relay team composed of Bullock, Jones, Hudspeth and Mabry. This team entered the Tri-State meet in Memphis during the Cotton Carnival, where they ran a three minute, twenty-five second mile to place above such teams as Ole Miss, Vanderbilt and Raymond.

The Dance

*"And beautiful maidens moved
down in the dance,
With the magic of motion,
and sunshine of glance."*

—JOHN GREENLEAF WHITTIER.

Dancing is perhaps the oldest of the Arts, for primitive man first expressed his feelings by rhythmic movements of his body. The range of the dance goes from the crude imitative dances of primitives to aesthetic ritualistic dances with religious significance. Dancing is a spontaneous activity produced by social exhilaration or religious exultation. In the perfect rhythm of the dance is an outward and visible sign of an inward and spiritual grace.

Commerce

“A man’s success in business turns upon his power of getting people to believe that he has something that they want.”

—GERALD STANLEY LEE.

Advertising, as an aid in the distribution of goods, stimulates trade. This exchange of goods among peoples is the basis of all successful business and industrial relations among the civilized nations of the modern world. These exchanges are governed by certain great natural laws—tropical products are in demand in the temperate zones and vice versa—thus commerce brings about a division of labor among the world population.

GOOD EYESIGHT – YOUR NO. 1 ASSET

Man is blessed with but one pair of eyes with which to see. Through these delicate windows he absorbs the beauty and mystery of nature—the knowledge to increase his mental stature. Truly, good eyesight is worth protecting. And one of the soundest investments anyone can make is to spend a few pennies for proper lighting—well-diffused and free from glare. ELECTRICITY IS CHEAP—EYESIGHT IS PRICELESS.

Appreciation

In closing the pages of our book which we hope contains a picture of your college life, the members of the staff wish to express their sincere appreciation to our sponsor, Miss Alice R. Collins, whose inspiration and untiring efforts have made possible our *Horizons*; to Mr. Stanley Allen for his financial assistance; to President Ras Branch, for his interest and understanding; to Mrs. Yvette McGowan of Cole's Studio for her willing service at all times; to Mr. L. E. Lowe of the Mississippi Engraving Company; to Hederman Brothers, especially Mr. Zach Hederman; to Mrs. Paul B. Brumby of Lexington, and to Mrs. Martha Tye McKie of Pickens for opening their beautiful homes for our use; to Reverend Elnathan Tartt of Canton for the use of the Episcopal Church; and to all of you for your intense interest and cooperation.

KATHLEEN HERRING

JOHN MAXWELL
